

Trusted GPT-4, ChatGPT and AI Detector tool by ZeroGPT

ZeroGPT the most Advanced and Reliable Chat GPT, GPT4 & AI Content Detector

1. Latar Belakang (Introduction):
 Dalam era modern ini, isu keamanan menjadi sangat penting, terutama di ruang publik seperti sekolah, pusat perbelanjaan, dan fasilitas umum lainnya. Salah satu teknologi yang dapat mendukung keamanan adalah sistem deteksi otomatis untuk mengenali keberadaan objek berbahaya seperti senjata tajam dan senjata api.
 Proyek ini mengimplementasikan teknologi deep learning menggunakan model YOLOv8 untuk mendeteksi objek berbahaya melalui feed video webcam, yang disimulasikan sebagai CCTV. Sistem ini diharapkan dapat memberikan peringatan dini melalui visualisasi dan hitungan mundur untuk menghubungi pihak keamanan. Hal ini sangat bermanfaat untuk sistem keamanan real-time di berbagai sektor.

2. Diagram Alur Penelitian:

Detect Text  Upload File 1,485/15,000 Characters
 Check 125,000 characters, [Upgrade Here](#)

3. Analisis Kode Program Pembentukan Model:
 Kode program berikut digunakan untuk melakukan pelatihan model YOLOv8:

Penjelasan:

- yolov8s.pt : Model YOLOv8 versi "small" dipilih untuk efisiensi kecepatan di GPU lokal seperti RTX 3050.
- dataset.yaml : File konfigurasi yang berisi path ke dataset training dan validation, serta daftar nama kelas.
- epochs : Jumlah iterasi penuh pelatihan data.
- imgsz : Ukuran resolusi gambar input yang digunakan dalam proses training.
- batch : Jumlah gambar yang diproses bersamaan dalam satu iterasi batch

Berikut ini gambar yang dihasilkan dengan teknologi AI berdasarkan dataset.

Model akan belajar mengenali dua kelas objek: "Knife" dan "Handgun" berdasarkan dataset berlabel yang telah disiapkan.

4. Tampilan :

The screenshot shows a web-based AI detection tool. At the top, there's a blue button labeled "Humanize Text". Below it, a sub-header says "Make Your Text Human With Undetectable AI". A yellow square icon indicates "Highlighted text is suspected to be most likely generated by AI*". Below this, the text "1,485 Characters" and "197 Words" is displayed. On the right, there's a "PDF Export to PDF" button. The main content area has a heading "Simple and Credible Open AI and Gemini Detector Tool for Free" and a sub-heading "Millions of Users Trust ZeroGPT, See what sets ZeroGPT apart".

Highlighted Sentences

Every sentence written by AI is highlighted, with a gauge showing the percentage of AI inside the text

Multiple Features

Enjoy our Top-notch Plagiarism Checker, Paraphraser, Summarizer, Grammar checker, Translator, Writing Assistant...

High Accuracy Model

Advanced and premium model, trained on all languages to provide highly accurate results

Generated Report

Automatically generated .pdf reports for every detection, used as a proof of AI-Free plagiarism

Support All Languages

Support all the languages with the highest accuracy rate of detection

Batch Files Upload

Simply upload multiple files at once, and they will get checked automatically in the dashboard

Unlock growth potential with our API

Our API is available for the AI Detector, Plagiarism Checker, Paraphraser, Summarizer, Grammar and Spell Checker, Chatbot & Translator

Our team has developed a user-friendly API for organizations. [Get API access](#)

DeepAnalyse™ Technology

A pioneering research in the modeling of AI content detection

Our AI detection model includes several components that analyze text to detect various types of AI-generated content.

determine its origin and if it was written by AI. We use a multi-stage methodology designed to optimize accuracy while minimizing false positives and negatives. From the macro level to the micro one, this is how DeepAnalyse™ Technology works. Our model specializes in identifying AI generated content like Chat GPT, GPT 3, GPT 4, Gemini, LLaMa models ... Finally, we employ a comprehensive deep learning methodology, trained on extensive text collections from the internet, educational datasets, and our proprietary synthetic AI datasets produced using various language models.

Use ZeroGPT in WhatsApp and Telegram

ZeroGPT is now available on WhatsApp and Telegram. Chat With ZeroGPT: Advanced ChatBot, Detect AI, Summarize, Paraphrase, Translate and Check for Grammar Errors... all these features available inside WhatsApp and Telegram.

WhatsApp

Register your WhatsApp's number in the Dashboard (section "Social Settings") and start using all the features of ZeroGPT inside WhatsApp using the phone number **+1 (206) 372-5474**

Telegram

Register the telegram code inside your Dashboard (section "Social Settings") and start using all the features of ZeroGPT inside Telegram using the telegram bot **zerogpt_official_bot**

Your questions, answered

How Does ZeroGPT work?

What is the accuracy rate of ZeroGPT?

Who Benefits from ZeroGPT's AI content detector?

Will my text get plagiarized or be available online, if I check it on ZeroGPT?

How can I integrate ZeroGPT tool in my organization or website on a large scale?

Does ZeroGPT work with different languages?

How can I cite the detector?
